

SPECTREM® 3

Single component,
 weather seal, non-staining
 silicone sealant...

Spectrem® 3 is a single-component,
 neutral-cure, low-modulus, construction

grade silicone sealant that is non-staining
 and has low polar attraction to dirt.
 Spectrem® 3 has a patented chemistry that
 has been specifically formulated to
 seal porous stone, EIFS, metal
 panels, masonry and
 pre-cast concrete joints.

Features & Benefits

20-year non-stain warranty when
 pre-approved and tested by Tremco
 in accordance with ASTM C1248

Low polar attraction
 to dirt

Suitable for a variety of joint widths
 with +/-50% joint movement capability

Extended tooling time and
 workability in high temperatures

Patent chemistry to seal porous
 stone, EIFS, metal panels, masonry
 and pre-cast concrete joints

Choice of 16 standard colours

Colour customisation
 services

Greenguard Gold certification
 suited for sensitive indoor environment
 including hospitals and schools

Applicable standards
 include...

- ASTM C920
- ASTM C1248
- ASTM C1382
- US Federal Specification
 TT-S-001543A Class A
- US Federal Specification
 TT-S-00230 Class A
- CAN/CGSB 19.13-M87
- EIMA Test Method 300.01
